

# Getting Started with CyVerse Home

## Learn the basics and overviews on the website

You have discovered a great resource for enabling your scientific computational research. The CyVerse website now contains the overview and introductory information.

- Before you can do anything, you'll need to [create an account](#). Along with your account, you will be subscribed to *The Node*, a monthly email newsletter with the latest on CyVerse news, events, workshops, products, and services.
- To make changes to your account, such as resetting your password or changing account information, see [Manage Account](#).
- Learn about the [CyVerse project](#).
- Go to the [Learning Center](#) for great information about creating and managing your CyVerse account, managing your data, choosing the platform for your needs, requesting a workshop, how to get Help, as well as information about the CyVerse teams, and more.
- Learn about how [BisQue](#) can help you manage your **image data online**, then come back here to the [BisQue User Manual](#) for detailed instructions.
- See [Upcoming Events](#) for the latest news about CyVerse workshops, webinars, and events.
- Find out about the CyVerse science support—for everyone from individual users to multi-institutional collaborations.
  - Learn about [DNA Subway](#) and how you can use it in your classroom.
  - Find out about how to [leverage CyVerse](#) components for your own computational platform.
  - [Request an External Collaborative Partnership](#) or [Get Powered by CyVerse](#)

## Learn about how to use the CyVerse platforms and apps here

This wiki contains the how-to information for how to use the CyVerse apps and platforms.

- By its nature, a wiki can present a tremendous amount of useful information, but it's important that you know how to navigate and use it. Go to [Using the CyVerse Wiki](#) to learn how to use this wiki, including setting up your dashboard, saving favorite spaces and pages, and more.
- View the [Tutorials List](#) to see what tutorials and videos you can view.
- [Watch some webinars](#) on the YouTube channel.
- Check out the overviews on [managing and accessing your data](#) and the [Data Store](#) on the website, then come back here to [learn how to handle your data](#).
- [Learn the basics about how to share and analyze](#) your data from a web browser using our easy-to-use Discovery Environment, which provides a graphical user interface for hundreds of bioinformatics applications, then come back here to the [Discovery Environment User Manual](#) for the how-to information.
- Visit the [CyVerse Apps](#) page for a list of programs, documentation, and sample data.
- [Learn the basics about Atmosphere](#), powerful free cloud computing for analysis and software distribution that's great for users who prefer to set up their own environment, come back here to the [Atmosphere User Manual](#) for detailed instructions.

## Get help when you need it

We all need a little help sometimes, and at CyVerse we are standing by to give you the support you need.

- View the [CyVerse maintenance calendar](#) for upcoming and current maintenance periods. You also can see the [Status](#) page on the CyVerse website and the most recent [CyVerse Node newsletter](#) (which lists the upcoming maintenance periods). Other helpful sources are the [CyVerse Facebook](#) page, [CyVerse Tweets](#), or the [CyVerse Google+](#) page, and within the DE you may receive system messages as well.

- Learn how to use the [CyVerse Wiki](#).
- [Email CyVerse Support](#) for technical support such as resetting your password.
- Learn how to use [Ask CyVerse](#), where you can submit your questions or see others' questions — *the* place to connect with CyVerse's knowledgeable bioinformaticians and users.

## Social media

We'd love to hear from you!
